

The Central Bank of Ireland has responsibility for the regulation of the Irish financial services industry and the safeguarding of Irish financial stability. A career with the Central Bank of Ireland offers a wide range of career opportunities including the supervision and regulation of the financial services industry in Ireland at a very challenging time.

The Central Bank of Ireland wishes to appoint a **Manager of Insurance Services** on a permanent contract for its General Insurance Division. The successful candidate will report directly to the Head of General Insurance Division and will have the following **primary responsibilities**:

- Management of the financial analysis, administrative & authorisation functions on behalf of the Insurance Directorate, including staff management and development.
- Process re-engineering and process improvement.
- Leading the decision making aspects of Authorisation work and enabling the authorisation team-lead to present effectively to Authorisations Committees.
- Managing the Administrative work-load and ensuring the Administration team lead is adequately resourced.
- Working with Regulatory Transactions Unit and Solvency II project to develop stream-lined responses from industry with respect to on-going regulatory reporting and analysis requirements.
- Leading the on-going development of effective and value added MI from the Financial analysis team through effective use of resources and technology.

General skill areas

- Senior Manager with at least 10+ years' experience in a relevant financial services area. Expertise in financial analysis, risk analytics & risk based supervision would be distinct advantage.
- Relevant Professional qualification. Excellent academic record to include at a minimum a post-graduate or professional qualification in a relevant management, analytics or technical area.
- Self-starter with proven decision making ability who can run the unit and develop services to peers within in the area of Insurance supervision.
- Good technical and general business knowledge of Insurance industry and regulatory framework in Ireland and abroad.
- Excellent knowledge of Solvency I regulatory reporting requirements and an interest and developing expertise in Solvency II requirements.
- A demonstrable interest in and aptitude for process management and/or shared services including particularly process engineering.
- First class communication and relationship building skills.
- Experience of delivery in a shared-service/SLA environment would be an advantage.
